

Program on Genomes to Global Health: Computational Biology of Infectious Diseases

Opening Tutorials & Workshop

September 19-22, 2004

PARTICIPANT LIST

Brian Adams

North Carolina State University
Department of Mathematics
bmadams3@unity.ncsu.edu

Chaehyung Ahn

University of North Carolina
Department of Biostatistics
cahn@email.unc.edu

Alisa Alker

University of North Carolina
Department of Epidemiology
alkera@med.unc.edu

William Atchley

North Carolina State University
Department of Genetics
bill@atchleylab.org

Seema Bajaria

University of Michigan
Department of Microbiology &
Immunology
seemieb@umich.edu

H.T. Banks

SAMSI & North Carolina State University
Department of Mathematics
htbanks@ncsu.edu

James Berger

SAMSI
berger@samsi.info

Martin Blaser

New York University
School of Medicine
Martin.Blaser@med.nyu.edu

David Bortz

University of Michigan
Department of Mathematics
dmbortz@umich.edu

Thomas Carr

Southern Methodist University
Department of Mathematics
tcarr@smu.edu

Kathryn Chaloner

University of Iowa
Department of Biostatistics
kathryn-chaloner@uiowa.edu

Stewart Chang

University of Michigan
Department of Microbiology and
Immunology
stchang@umich.edu

Xiaoguang Chang

University of Rochester
Department of Biostatistics
changxiaoguang@yahoo.com

Jianwei Chen

University of Rochester
Biostatistics & Computational Biology
jchen@bst.rochester.edu

Xi Chen
North Carolina State University
Department of Statistics
xchen@stat.ncsu.edu

Leona Clark
Bennett College
Department of Mathematics
lclark@bennett.edu

Bertrand Clarke
UBC/SAMSI/Duke University
Department of Statistics
bertrand@stat.duke.edu

Ben Cooke
Duke University
Department of Mathematics
bcooke@math.duke.edu

Lindsay Cowell
Duke University
Department of Biostatistics &
Bioinformatics
lgcowell@duke.edu

James Crooks
University of North Carolina
Department of Statistics
bigjim@physics.unc.edu

David Crosslin
Duke University
Center for Clinical & Genetic Economics
david.crosslin@duke.edu

Carina Curto
Duke University
Department of Mathematics
ccurto@math.duke.edu

Sujay Datta
Northern Michigan University
Department of Mathematics, Statistics &
Computer Science
sdatta@euclid.nmu.edu

Rob de Boer
Utrecht University
Department of Ost - Pathogen

r.j.deboer@bio.uu.nl

Anne De Groot
Brown University
Department of Community Health
Anne_DeGroot@Brown.edu

Victor De Gruttola
Harvard University
School of Public Health
victor@sdac.harvard.edu

Venita DePuy
Duke University
Center for Clinical & Genetic Economics
venita.depuy@duke.edu

Sabrina Doughty
Virginia Tech University
Department of Biology
sdoughty@vt.edu

Irene Anne Eckstrand
National Institute of General Medical
Sciences
Center for Bioinformatics &
Computational Biology
eckstrai@mail.nih.gov

Laura Ellwein
North Carolina State University
Department of Mathematics
lmellwei@unity.ncsu.edu

Timothy Elston
University of North Carolina
Department of Mathematics
telston@amath.unc.edu

Changyong Feng
University of Rochester
Department of Biostatistics &
Computational Biology
feng@bst.rochester.edu

Sheng Feng
North Carolina State University
Department of Statistics
sfeng@stat.ncsu.edu

William Fisher
MetaMetrics, Inc
Department of Research & Development
wfisher@lexile.com

Walter Fitch
University of California-Irvine
Department of Eco-Evo
wfitch@uci.edu

Joanna Fueyo
IBM
Information Based Medicine
jfueyo@us.ibm.com

Kseniya Fuhrman
University of Wisconsin - Milwaukee
Department of Mathematical Sciences
kseniya@uwm.edu

Byron Goldstein
Los Alamos National Laboratory
Theoretical Biology & Biophysics
bxg@lanl.gov

Mayetri Gupta
University of North Carolina
Department of Biostatistics
gupta@bios.unc.edu

Betz Halloran
Emory University
Department of Biostatistics
mehallo@sph.emory.edu

Rich Haney
Independent Software Developer
rhaney1@nc.rr.com

Min He
Duke University
Department of Biostatistics &
