

Modern Math Workshop 2014

October 15 and 16, 2014, preceding the 2014 SACNAS National Conference in Los Angeles, CA.

As part of the *Mathematical Sciences Collaborative Diversity Initiatives*, nine mathematics institutes are pleased to host their annual pre-conference event, the **2014 Modern Math Workshop** (MMW). The workshop begins with registration at 11:30 am on Wednesday, October 15, and ends at noon on October 16.

The Modern Math Workshop is intended to encourage minority undergraduates to pursue careers in the mathematical sciences and to assist undergraduates, graduate students and recent PhD's in building their research networks.

Most participants attending this workshop are supported by SACNAS. To apply to SACNAS, please see: <http://sacnas.org>

There is a very limited amount of funding available directly from MMW to fund attendance at MMW and SACNAS. Priority for these funds will be given to minority early career researchers and faculty. For more information and to apply for such funding, please see:
