

July 29-31, 2020

POSTERS

Romesh Liyana Arachchige

University of North Carolina, Greensboro

“Karhunen Loéve Expansion for Longitudinally Reversible Processes on the Sphere through Wavelet – Galerkin Method”

Co-author: Haimeng Zhang, University of North Carolina, Greensboro

Martha Patricia Bohorquez Castañeda

Universidad Nacional de Colombia

“Point Process of Traffic Accidents Analysed with Linear Networks”

Co-authors: Francisco J. Rodriguez-Cortes, Universidad Nacional de Colombia; JA Gonzalez, University Jaume I

Nicholas Bonaker

MIT

“Nomon: A Single Switch Interface for Assistive Technology”

Co-authors: Emlí-Mari Nel (Empiric Capital), Keith Vertanen (Michigan Tech), Tamara Broderick (MIT)

Dang Hoang-Nguyen

National Cancer Center - Graduate School of Cancer Science and Policy

“Network Analysis and Visualization for Understanding the Relationships between Self-rated Health and Health Determinants”

Co-authors: Sanghee Lee¹, Tran Thi Xuan Mai¹, Hyunsoon Cho^{1,2}

¹ Department of Cancer Control and Population Health, National Cancer Center Graduate School of Cancer Science and Policy, Goyang, Republic of Korea ² Division of Cancer Registration and Surveillance, National Cancer Control Institute, National Cancer Center, Goyang, Republic of Korea

Hannah Diehl

MIT

“The “See”-Value App: Visual Decision Making for Drug Development”

Co-authors: A. M. Stein (Novartis Pharmaceuticals), N. Roy Chowdhury (Novartis Pharmaceuticals), M. Shiffman (MIT), A. Gelman (Columbia), T. Broderick (MIT)

Lihua Lei

Stanford University

“Conformal Inference of Counterfactuals and Individual Treatment Effects”

Co-author: Emanuel Candes, Stanford University

Johané Nienkemper-Swanepoel

Stellenbosch University

“Missing Data: GPABin biplots”

Co-authors: NJ le Roux and S Lubbe

Klaus Nordhausen

Vienna University of Technology

“Ladle Estimator for Time Series Signal Dimension”

Una Radojicic

Vienna University of Technology

“Notion of Information and Independent Component Analysis”

Co-authors: K. Nordhausen, Vienna University of Technology; H. Oja, University of Turku

Agata Sielska

Warsaw School of Economics

“Matching Approach to Analyse Relative Situation of Polish County Hospitals in Terms of Liabilities”

Co-author: Ewelina Nojszewska, Warsaw School of Economics
